Chairman: Professor Attila Felinger, University of Pécs, Hungary

HPLC 2011

Budapest

Permanent Scientific Committee

Fritz Erni, Switzerland
John Frenz, USA
Georges Guiochon, USA
Bill Hancock, USA
Barry Karger, USA

Wolfgang Lindner, Austria
Peter Schoenmakers, The Netherlands
Nobuo Tanaka, Japan
Douglas Westerlund, Sweden
Guowang Xu, China
Ed Yeung, USA

The symposium

The HPLC Symposium series is the premier symposium for liquid phase separations and related techniques. The HPLC 2011 Budapest Symposium will provide a forum for separation scientists, users of separation methods, and exhibitors. The scope of the meeting comprises advancements in all types of liquid phase separations.

The program will include keynote lectures, contributed oral presentations on original research and applications, as well as a large number of poster presentations. Educational seminars and workshops will provide state-of-the-art details on the progress in separation science.

The exhibition will display the latest instrumental innovations in separation science and related areas.

A highly attractive social program will be an essential part of the symposium.

Budapest

Budapest possesses a rich and vibrant cultural heritage and there are many great sites to visit, including the Parliament, Heroes' Square, Gellért Hill, the Opera House and Matthias Church. You may enjoy the spectacular view of Buda Castle and the Bank of the Danube which both belong to the World Heritage. Budapest is known as 'City of Spas', as there are a dozen thermal bath complexes served by over a hundred natural thermal springs. The city is world famous for its vivid cultural life: the abundance of concerts, opera performances, recitals, and exhibitions.
