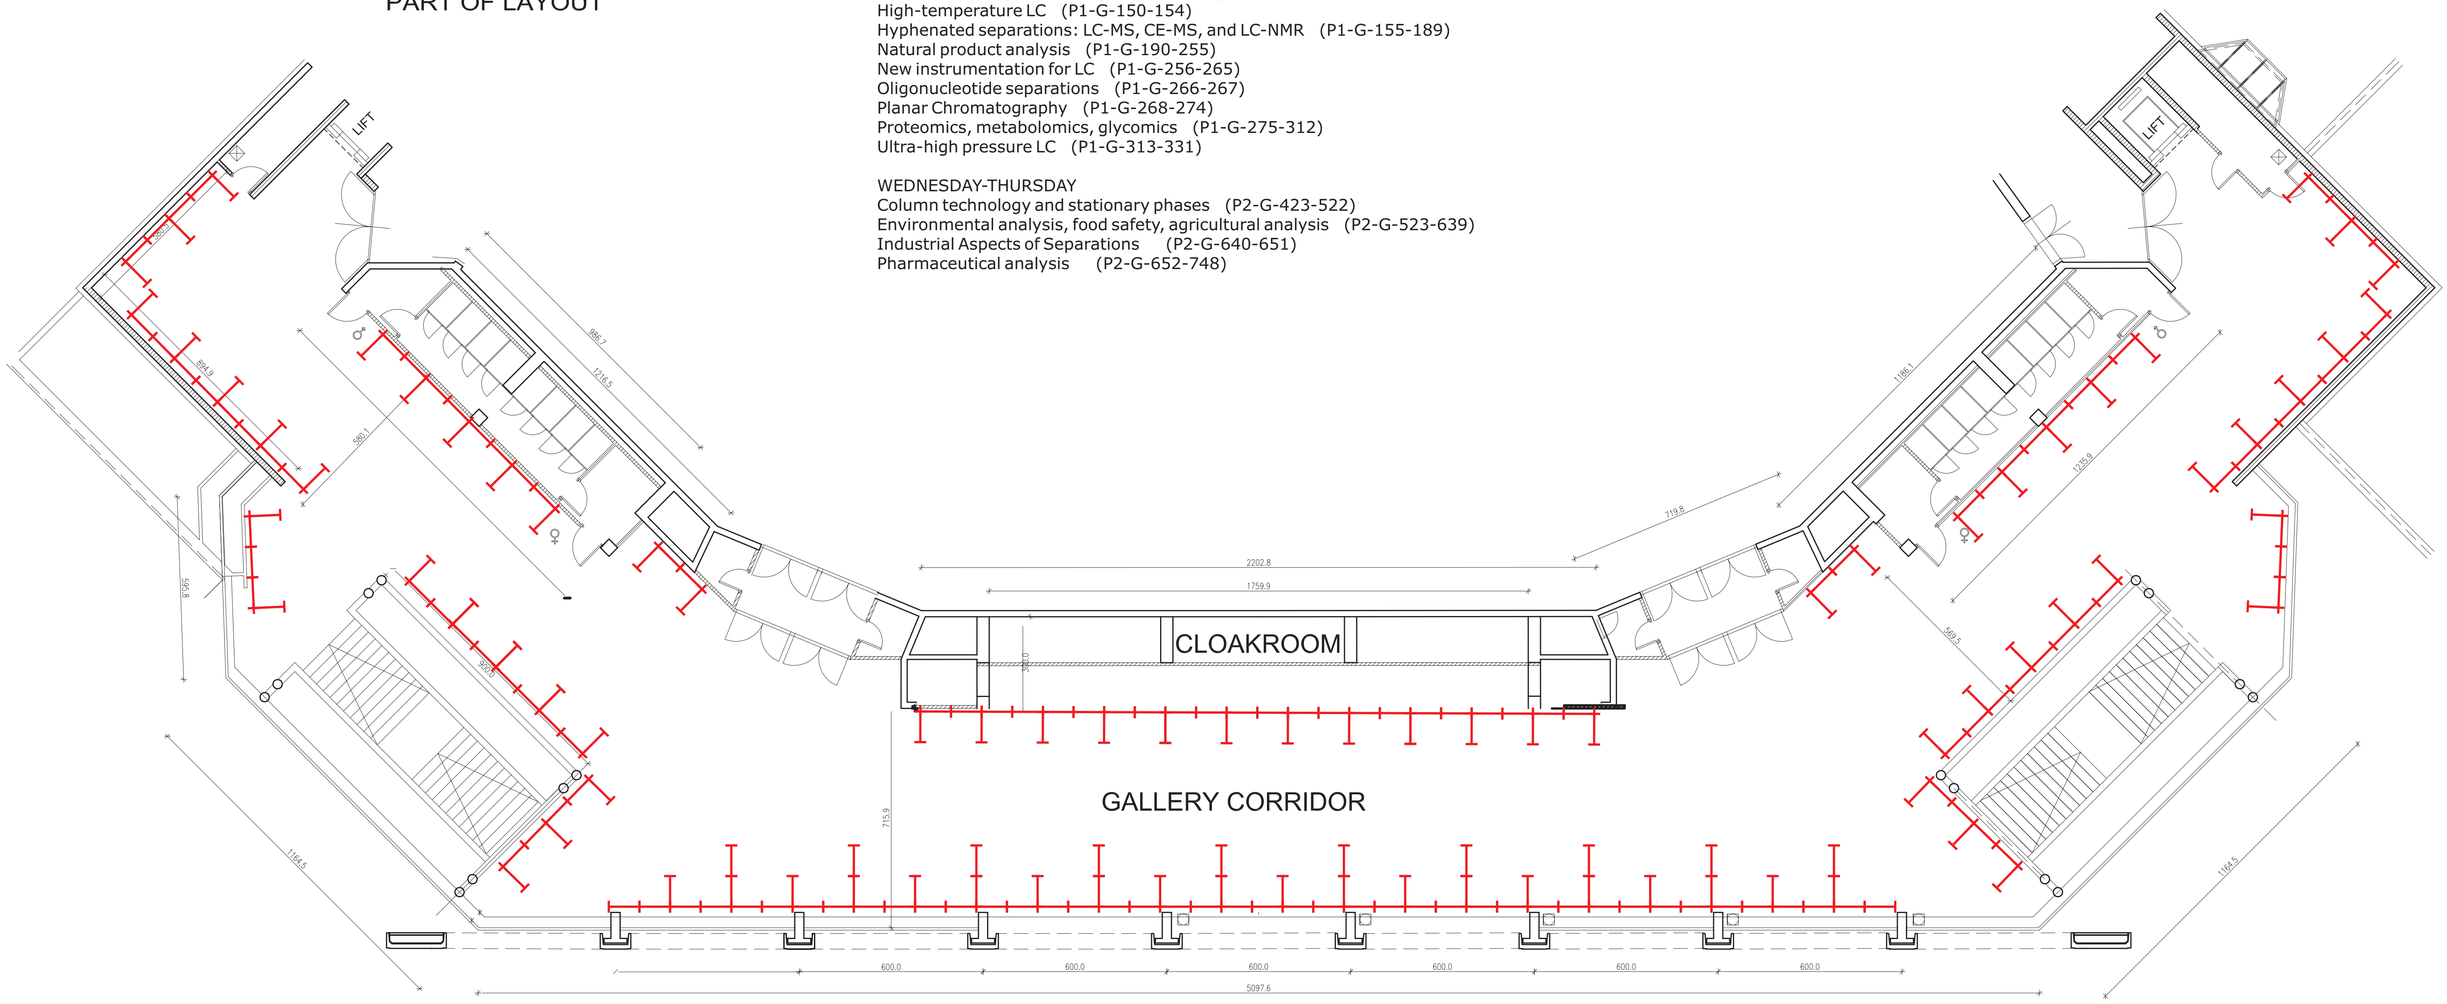
MONDAY-TUESDAY
Advances in Separation Techniques (P1-G-001-031)
Chip based separations, microfluidics, microscale detection systems (P1-G-032-058)
Chiral separations (P1-G-059-091)
Clinical, forensic, and toxicological analysis (P1-G-092-118)
Electrodriven separations (P1-G-119-149)
High-temperature LC (P1-G-150-154)
Hyphenated separations: LC-MS, CE-MS, and LC-NMR (P1-G-155-189)
Natural product analysis (P1-G-190-255)
New instrumentation for LC (P1-G-256-265)
Oligonucleotide separations (P1-G-266-267)
Planar Chromatography (P1-G-268-274)
Proteomics, metabolomics, glycomics (P1-G-275-312)
Ultra-high pressure LC (P1-G-313-331)

WEDNESDAY-THURSDAY
Column technology and stationary phases (P2-G-423-522)
Environmental analysis, food safety, agricultural analysis (P2-G-523-639)
Industrial Aspects of Separations (P2-G-640-651)
Pharmaceutical analysis (P2-G-652-748)


316 posters in one session
side 84 posters/each
